D-75s Headed for Changchun Radio China

NEW BERN (November 13, 2007)– Audioarts regional dealer Audio Design Ltd. will be providing three D-75 radio consoles for the northeastern facility which is replacing several legacy analog consoles.

Mark Tsang from Audio Design Ltd. reported: “They choose the D-75 because the cities around them already have purchased many D-75s and D-8000s. Shenyang radio has six D-8000s, Jingzhou city has one D-8000 and three D-75s and Benxi city has two D-75s. The numbers of Wheatstone and Audioarts consoles were a big factor in Changchun’s decision.”
